The Crystal Delta Course Building service supports education institutions with the creation of engaging online course content.

This service covers the following key pillars of success for online learning:

### MOBILE

Making sure the content is easy to navigate and read on mobile phones and tablets

### INTERACTIVE

Interactive content encourages engagement, and interactions can be measured

### VIDEO

Outside the classroom, the optimum way to consume learning content is via video

### ACCESSIBILITY

Online content should be accessible by learners who are differently able
