

Archive Course and Student data Smarter

Crane Archiving empowers administrators, institutions, and organisations with the ability to easily archive legacy course and student data. By leveraging Crane's Archive feature you can rapidly reduce costs and streamline your data records.

Browsable Archiving Services

Crane enriches and simplifies your EdTech ecosystem by eliminating your need to maintain legacy systems and enhances your ability to structure your new LMS so that only need to support active courses.

ACCESS AND AVAILABILITY

Easily recover past course, student, and grade data through the Crane dashboard, providing your staff and students with complete access when they need it.

VIEW, RESTORE, OR MIGRATE

Crane resourcefully allows your team with the ability to fully view the course, restore old courses back into the Legacy LMS or move them to your new LMS using the Crane Migration self-service functions.

MEET COMPLIANCE

Often governments require institutions to store student and grade data for seven years past the course end date, this can be a costly and time-consuming operational activity.

ARCHIVE SMARTER

Crane Archiving empowers you to no longer need to preserve a legacy LMS, manage archive packages or manually maintain excel spreadsheets. Gain the freedom to store your data for access 24/7.
