

# E-learning. Made. Xen.

Xen.Ed is the only e-commerce ready & fully customisable platform that helps you create, sell, market, and deliver courses end-to-end.

Whatever your needs, Xen.Ed scales to meet your learning and training demands from Professional Development, Employee training, and Onboarding programs, all the way down to nano-learning.

## CUSTOMISABLE E-LEARNING & E-COMMERCE PLATFORM

Xen.Ed is a powerful & customisable end-to-end cloud-based e-learning platform that enables online learning within minutes and start creating online courses, programs, and robust training modules that will engage your users.

### CRAFT & MANAGE YOUR CONTENT

Xen.Ed supports Certification, Skills, Compliance, and Continuous training. You can also schedule delivery and access. Engage learners with video content, to-do lists, quizzes & interactive tests, H5P interactives, micro-credentials & badges, import SCORM content, and much more.

### E-COMMERCE READY

Built-in eCommerce functionality, allows you to sell courses individually or in bundles, or via subscription, direct to your learners.

### FULL BRANDING SUPPORT

From custom themed learning portals to powering your entire Marketing website, Xen.Ed shapes into your own brand and imprints your business identity, giving you full control of the customer experience.

### FIND YOUR XEN

- ✔ Effortlessly craft courses & templates, packed with interactive features + H5P support, or import existing SCORM packages.
- ✔ Build engaging quizzes & tests using interactives, drag & drop, image-based, and mathematical problems, surveys, and more.
- ✔ Include interactive videos, with synchronized transcripts, eBooks, assessments, and certifications.
- ✔ Issue Digital Certificates or Badges.
- ✔ Market your courses with a dynamic catalog, filters, and sales pages, for users to enrol and purchase online.
- ✔ Analytics and Insights for data driven success.
- ✔ Bulk import users & enrolments from CSV or via APIs, or integrate with your directory via SSO.
- ✔ Custom Development: We think Xen.Ed is already pretty ace, but its real power is in customisable features to tailor the platform to the unique needs and specific functionality of your organisation.

## LEARNING MODES

Switch between blended & online modes.

Integrate face-to-face training and allow learners to join in-person sessions online in real-time via Zoom, G-Meet, BigBlueButton, or your favourite video conferencing.

Select whether your users navigate freely, sequentially or set your own restrictions.

You can schedule the delivery of content in advance, and drip-feed units of learning.

Instructors can communicate with individual users or groups via discussion forums, video, and other messaging tools such as Slack or Facebook Workplace.

Xen.Ed scales with your needs, whether you're selling 50 courses or 100,000.

## SUPPORT 360°

We have a 99.95% platform uptime, but when you need support, you can peruse the interactive Knowledge Base, log support requests, or chat directly with the customer success team anywhere in Xen.Ed.

## SUCCESS STORY

Future Learning Academy

Future Learning Academy wanted to create dynamic workspaces for educators to collaborate and be creative, seamlessly blending face-to-face and online courses with bite-sized learning.

“Xen.Ed allowed us to shape learning experiences that create a measurable impact in schools and have the highest impact on teacher practices through rapid upskilling. Ultimately it fulfils our purpose of empowering young people to create a better world.”

- Rowena Ulbrick  
Founder

From short courses to full degree programs RMIT Online launched in 2017 as a new online course offering from RMIT geared towards industry-focused, flexible learning. Specifically designed for learners continuing their education, brushing up on skills, or getting ready for a career change.
